

Presentation

Free flowing brown solid granule containing 250 mg/g nicarbazin, and inert carriers.

Product Identification

Nicarbazin is a chemically synthesized anticoccidial.
EU identification number: 5 1 774

Indication for use

In chickens for fattening for the prevention of coccidiosis caused by *Eimeria tenella*, *E. acervulina*, *E. maxima*, *E. necatrix* and *E. brunetti*.

Dosage and administration

Add *Nicarb* in form of a premixture to complete feed to provide nicarbazin 125 mg per kg.

Nicarbazin shall not be mixed with other coccidiostats except with narasin.

Package size

25 kg. multi-walled bags.

Acceptance Criteria

Free flowing solid brown granule
HPLC chromatogram is similar to that of reference sample
237 - 275 mg/g nicarbazin by HPLC
NLT 99% passes a No 20 US standard mesh sieve
NMT 7% passes a No 120 US standard mesh sieve
NMT 7%

Storage Conditions

Store in a cool and dry place. Shelf life is 24 months from the date of production, when stored in the unopened original packaging.

Legal category

feed additive, category coccidiostats

Warnings

Chickens must not be slaughtered for human consumption during treatment or for one day thereafter.

Not for use in laying birds.
For animal treatment only.
Keep out of the reach of children.
