

# GQ1 Sanitizer

An industrial sanitizer for use in controlling microbial contamination in animal production facilities.

## FOR USE ON

- Farm Equipment
- Poultry & Turkey Houses
- Swine Housing & Farrowing Areas
- Barns & Large Animal Buildings
- Hatchers, Setters & Chick Processing Facilities
- Trays, racks, carts, chick boxes, cages & others hard surfaces
- Trucks & other vehicles
- Egg sanitization
- Non-Food Contact Surfaces

## BENEFITS

- The antimicrobial action of 14% glutaraldehyde and 2.5% quaternary ammonium salt make GLUTEX GQ1 an efficient sanitizer.
- Effectively sanitizes against key pathogens such as *Avian Influenza* (H5N1 and H6N2), *Aspergillus fumigatus*, *Salmonella cholerasuis*, *Pseudomonas aeruginosa*, *Porcine circovirus*, *SARS Associated Coronavirus*, and more\*
- Helps reduce contamination on a wide variety of surfaces such as stainless steel, aluminum, painted concrete, plastic and glazed tile.
- Low corrosion to metals that can tolerate exposure to water.
- No formaldehyde or formaldehyde release from this formulation.
- Glutaraldehyde is readily biodegradable according to OECD 301A test method.
- Concentrated liquid formulation makes product dilution simple and easy for farm use.
- GLUTEX GQ1 Sanitizer is extremely effective in animal biosecurity and can be used at concentrations as low as 0.45 oz per gallon of water.

GLUTEX Sanitizers can play an important role in a thorough disease control and prevention program.

\*For a full list of organisms please see the EPA product label

ITEM #	PRODUCT DESCRIPTION	UOM
50682	Glutex GQ1	1 gal
50683	Glutex GQ1	5 gal
